KRUGER FATALLY ILL

It Is Said by His Physicians that He Won't Live a Fortnight Longer.

HILL IS DECLARED FOR PRESIDENCY

China Wants Peace and Makes Order Therefor, the Commissioners Signing the Note of the Powers.

A MAN BURNED TO DEATH ALONG WITH HIS HOME

Paris, Jan. 12.—Paul Kruger, the refugee president of the Transvaal, is critically ill. His German physician says he can't live a fortnight. The report is quite a surprise to the general public, for though it was known Mr. Kruger was indisposed it was not thought he was in any ways in a dangerous condition. The change of climate, water and mind trouble have broken his usual robust health.

Washington, Jan. 12.—Comptroller Bird S. Coler, of New York, says Hon. David B. Hill is now an announced candidate for the presidency four years hence. Coler speaks as if by the card and declares subsequent events will justify what he announces.

Pekin, Jan. 12.—The Chinese court has promulgated orders for peace. The commissioners, too, as declared, have signed the note of the powers setting forth terms and a basis of adjustment of the recent trouble. The two facts

MOUNTAINS MAY TUMBLE.
Tacoma, Wash., Jan. 12.—Advices from Japan by the steamship Braemar state that subterranean disturbances have taken place in Yamanashi prefecture, where Mount Takalanne and a tract of mountainous region known as Kikkoten, in the Minami Koma district, are threatening destruction, though not from the defects of volcanic disturbance. The mountains have been changing their contour nearly every day since the heavy rainfall that occurred in August last, when numerous splits were produced in the mountains. It is feared that the mountains may tumble into the river Oyama and the villages in the immediate neighborhood buried.

The delegation already en voyage is headed by four brothers named Ballet, from Los Angeles, each six feet tall, and each having a wife and four daughters. The colony, which has considerable cash capital, will go into cattle raising in the valley of the Platte river.

FOR THIRTY YEARS.
London, Jan. 12.—George Johnston, the eccentric millionaire, known as "Laird of the Fife Isle Estate," near Dundee, is dead. Thirty years ago Johnston vowed that no one should ever see his face again, and, as far as is known, the vow was kept. He never set foot out of the house in which he lived. One servant cooked his meals, set them outside his door, rang a bell and retired. Johnston was never married. He leaves a fortune estimated at \$25,000,000. This will go to his nephew, Lieut. Cryston, now in the Sudan.

DIAZ HAS A PLAN.
Monterey, Mexico, Jan. 12.—It is circulated here that President Diaz and Minister of Finance Lamantora have decided to relieve the financial situation by offering inducements to silver producers to bring their products to the mint. This, it is believed, will do away with the present scarcity of silver coin.

THE NEW TOBACCO

Coming in Causes Heavy Disbursements at the Local Banks.

THE MANUFACTORIES ARE VERY BUSY

While the Wholesalers are Greatly Pleased With the New Year Outlook and Business.

THE RETAIL TRADE HOWEVER IS ABOUT NORMAL

The banks have had a large counter business and disbursed a good deal of money. The short tobacco season of the week caused a rush of new tobacco, but it lasted only a few days. Clearings for the week foot up a splendid total, \$265,918.04. The manufacturing interests are enjoying splendid trade and working full time. The Lack Singletree company was compelled to put on a night force to meet the rush of business. The new year has started out, so far, very well for the wholesale houses with prices, especially in the hardware line, stiffening considerably. The retail trade is holding its own with nothing of particular interest transpiring.

NEWS AND COMMENT.

The Molinex murder case, or appeal, as it will go to the printer, will number about 4,000 typewritten pages, the record for book. It will make ten volumes of 5,000 printed pages each, which it will cost the county about \$9,000 to print. The case will reach the court of appeals by February 12.

In an argument in favor of the Grout oleomargarine bill before the senate committee, Secretary of Agriculture Wilson said the annual consumption of butter was eighteen pounds per capita and of oleomargarine something over one pound, a dangerous competition.

The deal for the lease of the Consolidated street railroads of Cincinnati to the Elkins-Whitney-Widener syndicate probably will be closed soon. The syndicate, it is understood, also has designs on the lines entering Covington and Newport.

Last year Colorado more than doubled California's production of gold and also led the list of states in the value of silver mined. Gold was produced in twenty-two states and silver in nineteen, though the quality in several was small.

Republicans in the Indiana legislature are trying to rush a bill through to raise Governor-elect Durbin's salary from \$5,000 to \$8,000. The Democrats will oppose the scheme, and a lively fight is expected.

WHEELER HAS A PLAN.

SENATORIAL CONTEST TO BE DECIDED AT NOMINATION OF LEGISLATORS.

Washington, Jan. 12.—Congressman Chas. K. Wheeler, who is an avowed candidate for United States senator, favors that the Democratic nomination be decided by popular vote as nearly as possible. He is willing to submit his candidacy to direct vote of the people, and proposes that the Democratic committees of the several counties provide for taking the sense of the voters on the senatorship at the same time the candidates for the legislature and county offices are chosen, and in the same manner. He said he was willing to submit his candidacy in this manner, as has been done in Tennessee and Texas with marked success.

ALL A FAKE.

In the village of Bodru a Turk named Ismail, said to be 120 years old, frequently walks to Bartin, ten miles distant, to sell eggs. He has had 34 wives, the last of whom he just married. The bride is 63 years his junior, and the marriage was celebrated with much solemnity to the sound of drums and files and of volleys from firearms. The whole village was en fete. The wedding procession included all the male progeny of the patriarchal bridegroom, consisting of 140 sons, grandsons and great-grandsons.

THE RAILROAD NEWS

President Jere Baxter, of the Tennessee Central, says he will extend his road into Kentucky through Bowling Green and establish a connection with the Illinois Central at Bowling Green. Altogether he proposes to build 250 miles of new road. Mr. Baxter says the necessary funds to do the work have been secured. Nearly all of the towns along the route will help the road by donations.

Mark J. O'Brien has been appointed assistant general manager of the Southern Express company, with headquarters in Chattanooga.

New time tables will go into effect tomorrow on the Louisville and Memphis divisions of the Illinois Central, but there will be only two changes affecting trains coming into Paducah, and these are to be of little importance. No. 103, which now arrives from Louisville at 3:40 a. m., will arrive at 3:37 a. m., three minutes earlier. No. 132, which now arrives at 7:40 a. m. from Fulton and leaves at 7:45, will arrive at the same time, but will leave at 7:30, giving it a ten minutes stop over here, instead of a five minutes.

The passenger train from Memphis, delayed five hours yesterday, was late into Memphis on account of a washout on the Mississippi division.

A special train of five coaches, under the management of Whitcomb & Raymond, of Boston, passed through the city over the Illinois Central at 4:45 this morning, en route with a party of eastern tourists to California.

Trainmaster J. J. Flynn has returned from Chicago.

Mr. G. S. Hise, formerly a well known passenger conductor on this road, but more recently of the Air line, was in the city last evening en route from a trip south to his home in New Albany, Ind.

The Memphis train due at 11:40 today was delayed three hours and half by washouts on southern connections.

Re-Not Initiation.
It is no matter of fact riding-the-goat ceremony with which an Irishman is converted into an Orangeman, according to the experience of Mr. James Warke of Limavady, County Kerry. Warke, a farm servant, summoned his employer and three other men for assaulting him. Warke says the defendants told him they would make him an Orangeman, and that they tied his legs together, put a cloth over his eyes and branded him with red-hot tongs. This was his initiation. Two days later there was a further ceremony in the course of which the defendants stripped him naked, fastened his feet together with one rope, suspended him from a beam with another rope passed round his waist and then swung him backwards and forwards, while they stung him with nettles and pricked him with pins, a process which was continued till he fainted. The defendants escaped with fines of \$10 each and costs.

SATURDAY, JAN. 12, 1901.

The world will be crowded with people in 2000. But what's the odd? There are none here now who will be in the jam a 100 years hence.

The grip seems to have a good hold on this country, or the people comprising the inhabitants thereof. All sections seem alike affected.

The new century would win credit if it could early develop an honest politician and an office holder who is not an advocate of perpetual occupancy of the office.

The Jackson Day observances by the Democrats had much the appearance of funerals. Coming so soon after the November last contest the speeches were really very defeatist.

Senator Cullom seems to have all his opponents not only guessing but on the hip. If he is not his own successor Illinois will always wonder how the old man was defeated.

The news from China is not assuring. The Chinese are not only slow to sign the peace terms, but there are reports of concessions to Russia and also of massing of government troops, etc. The kingdom appears to be existing just above a volcano.

The powers may have to take their spanking shingles from off the walls before the Chinese realize that the request for them to sign those protocols was not made in fun. The Mongolian seems unable to realize a demand unless it is accompanied by the bayonet.

China will be the loser by any and all delay in signing the peace notes of the powers. This government insists on no loss of time and if the wish is not carried out China will suffer through a loss of interest. The Flowery Kingdom endangers its peace and life by its dallying and stubbornness more than it irritates the powers, as it will realize too late, no doubt.

The old story of the yokel who played with the flies until he caught a hornet is the experience of England with the Boers. Heretofore it has been with the British "Zip we've caught a fly," etc., but it is now "Zip we've caught a hornet" in the shape of a Boer as full of bristles as a porcupine. Just when England can "let its enemy loose" or declare victory is not so clear, as old story of the yokel is fresh in the public mind.

Some of the Democratic papers of the state—those with ideas not beyond an office-point to the growth of the Tenth and Eleventh districts, Republican localities, as evidence of political rascality. The mountain counties have long been designated as the wealth producing section and the most promising of any in the state, and that home seekers have flocked to them is only a natural consequence. The idea held by the Democratic press, as stated, is only evidence of idiocy, as it appears on its face.

Mr. Bryan has kissed his presidential aspirations goodbye. This was made clear by his speech in Chicago on the 8th. He recognized the inevitable when he declared his party greater than any man and asked the club he was addressing be given not the name of Bryan but that of some tried Democratic patriot who had passed beyond. His intimation that he is politically dead was accepted silently by the club and will soon be recognized by the public generally. The party has already begun to look elsewhere for a Moses to lead it, if not to the land of milk and honey, to a fairer land of Promise.

What does Mayor Lang think of a city of 20,000 inhabitants and of which he is mayor, whose board of health hasn't had a meeting in nearly a year and a half? Is it any wonder that sanitary measures have to be finally taken up and urged by the medical profession, the integrity and earnestness of the members of which is adequately attested by the fact that they would be the ones to most profit by the city's unsanitary condition? The reason Mayor Lang has so victoriously combated the idea of an unsanitary city is because he knows that as the council, who squelched the board of health nearly two years ago, are solely to blame for the state of affairs. He knows that conditions have not been exaggerated, but in an effort to save himself and his administration from the just censure that they deserve, he persists in claiming that the doctors, press and everything else—except himself—are wrong.

OF PNEUMONIA.

WEALTHY RESIDENT OF MARSHALL COUNTY DIES IN PADUCAH.

Mr. W. B. Carper, Sr., a wealthy and prominent former citizen of Marshall county, died at 6 o'clock last evening at the residence of Mr. J. J. Goodman, 301 Clements street, after a ten days' illness from pneumonia. Death was not unexpected.

The deceased came to Paducah from Seale, Marshall county, about ten days ago to locate, and purchased Mr. Goodman's house, but before Mr. Goodman moved, the new owner became ill, and he and his wife remained to take care of him.

The deceased was about 54 years old and leaves a wife from whom he had separated, in Marshall county, proceedings for divorce and alimony now pending in that county.

The remains were today taken to Marshall county by H. B. Carper, Jr., his nephew, for interment.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney Co. Testimonials free.

Sold by druggists, 75c per bottle. Hall's Family Pills are the best.

TELEGRAPH COMPANIES LIABLE
The supreme court of Illinois has made the law governing the liability of telegraph companies for imperfect and unsatisfactory service more clear than it has been. The case passed upon, respecting which a decision was handed down, was a typical one. A judgment for \$1,236.31 in favor of the North Packing company of Boston, Mass., against the Western Union Telegraph company, rendered in the circuit court of Cook county and affirmed by the appellate court, was affirmed in the decision of the supreme court. It seems that a suit for damages resulted from the failure of the telegraph company to deliver promptly a telegram sent by the packing company to its agent, L. B. Kent, whose duty it was to purchase hogs and cattle at the Union Stock yards, Chicago, and to forward the same to Boston and elsewhere. The delayed message, received at Chicago at 4:30 p. m. on Monday, instructed Kent to buy nothing Tuesday. Before receiving this message, on Tuesday at about 8:30 a. m., Kent had purchased about six car loads of hogs. The appellant contended that Kent, on learning of the mistake in the delivery of the message, should immediately have resold and then held the telegraph company liable for any loss. The decision of the supreme court has been such as to demand of the telegraph companies better service. The fact is that the telegraph companies in the United States at the present time are receiving nearly three times for their service what it is worth. Were the water squeezed out of the stock of the companies a reduction of 50 per cent in the prices charged for the sending of messages could be effected and still proper returns be had upon the money invested in the telegraph systems. The service in most cases is indifferent and in many cases is absolutely poor. The public has the right to demand of such public servants better accommodations.

In this connection it is noted that there is likely to be a revival of the disposition among legislators to reduce the price of telegraph tolls for messages in this state in the state general assembly next meeting. In a state like this where officers are numerous and returns large, telegraph messages ought at last to be sent as cheaply as they are in Mexico where the population is small and the difficulties of establishing a system are great. In Mexico a ten cent message system has proved a great success.

CHANGE OF CLIMATE

NOT NECESSARY IN ORDER TO CURE CATARRH.

The popular idea that the only cure for chronic catarrh is a change of climate is a mistake, because catarrh is found in all climates in all sections of the country; and even if a change of climate should benefit for a time the catarrh will certainly return.

Catarrh may be really cured in any climate, but the only way to do it is to destroy or remove from the system the catarrhal germs which cause all the mischief.

The treatment by inhalers, sprays, powders and washes has been proven almost useless in making a permanent cure, as they do not reach the seat of disease, which is in the blood and can be reached only by an internal remedy which acts through the stomach upon the blood and system generally.

A new discovery which is meeting with remarkable success in curing catarrh of the head, throat and bronchial tubes and also catarrh of the stomach, is sold by druggists under name of Stuart's Catarrh Tablets.

These tablets, which are pleasant and harmless to take over their efficiency to the active medicinal principles of Blood Root, Red Gum and a new specific called Gualacal, which, together with valuable antiseptics, are combined in convenient, palatable tablet form, and as valuable for children as for adults.

Mr. A. R. Fernbank, of Columbus, Ohio, says: "I suffered so many winters from catarrh that I took it as a matter of course that nothing would cure it except a change in climate, which my business affairs would not permit me to take."

My nostrils were almost always clogged up; I had to breathe through the mouth, causing an inflamed, irritated throat. The thought of eating breakfast often nauseated me and the catarrh gradually getting into my stomach took away my appetite and digestion.

My druggist advised me to try a fifty cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of catarrh by the use of these tablets, that he felt he could honestly recommend them. I took his advice and used several boxes with results that surprised and delighted me.

I always keep a box of Stuart's Catarrh Tablets in the house and the whole family use them freely on the first appearance of a cough or cold in the head. With our children I think there is nothing so safe and reliable as Stuart's Catarrh Tablets to ward off croup and colds and with older people I have known of cases where the hearing had been seriously impaired by chronic catarrh cured entirely by this new remedy.

WOMAN GRABBED SNAKE

And Saved Her Head Off on a Harbored Wire Fence.
Genoa (N. Y.) correspondent Chicago Inter-Ocean: Mr. and Mrs. James Bastedo of Syracuse are visiting Mr. and Mrs. Stephen Parker, who reside on a farm near this village. Mrs. Bastedo started out to gather red raspberries in the cow pasture late last Thursday afternoon. She did not return at supper time, and an hour later Mr. Bastedo and Mr. Parker started to search for her. When they arrived at the pasture they shouted. The pasture contains about thirty acres. They heard her voice in reply coming from the farther side of the field, and hastened in that direction. The men found Mrs. Bastedo backed up in a corner of the fence. She cried to them not to come very near unless they were armed, as there was an immense snake coiled in front of her and watching. Each man picked up a club and started for the snake. It heard them approaching and made a rush for Mrs. Bastedo. Quick as a flash it coiled around her and tried to strike her in the face. She caught it by the throat and frantically eyed its head off on the buckthorn wire fence. Then she fainted. The snake was dragged to the house and measured. It was a blacksnake 13 feet 9 inches long. Yesterday afternoon Mr. Parker, Mr. Bastedo and J. W. Shaw were cutting wood in the same field. Mr. Wood was about 100 feet from the others when he gave a yell, caught up a club and struck at something in the grass. The men ran to his assistance. Just before they reached him they saw a large snake coiled around his legs and body and trying to strike him in the face. Mr. Parker caught the reptile by the throat and held it while Shaw cut off its head with an ax. It too, was a blacksnake, 11 feet 5 inches long.

THE SAYINGS OF CONFUCIUS.
"The cautious seldom err."
"If the will be set on virtue, there will be no practice of wickedness."
"It is only the truly virtuous man who can love or who can hate others."
"Virtue is not left to stand alone. He who practices it will have neighbors."
"The superior man wishes to be slow in his words and earnest in his conduct."
"If a superior man abandon nature, how can he fulfill the requirements of that nature?"
"If a man in the morning hear the right way, he may die in the evening without regret."
"He who acts with a constant view to his own advantage will be much murmured against."
"The superior man in the world does not set his mind either for anything or against anything; what is right he will follow."
"The mind of the superior man is conversant with righteousness; the mind of the mean man is conversant with gain."
"A scholar whose mind is not set on truth, and who is ashamed of bad clothes and bad food, is not fit to be discoursed with."
"The reasons why the ancients did not readily give utterance to their words was that they feared lest their words should not come up to them."
"Tze-Kung said: 'What I do not wish men to do to me, I also wish not to do to men. The Master said: "Tze, you have not attained to that."
"When we meet men of worth we should think of equalling them; when we see men of the contrary character, we should turn inward and examine ourselves."
"The superior man does not, even for the sake of a single meal, act contrary to virtue. In moments of haste, he cleaves to it. In seasons of danger he cleaves to it."
"The superior man thinks of virtue; the small man thinks of comfort. The superior man thinks of the sanctions of law; the small man thinks of favors which he may receive."
"Those who are without virtue can not abide long either in a condition of poverty and hardship, or in a condition of enjoyment. The virtuous, in virtue, the wise desire virtue."
"A man should say, I am no good. If I have no place—I am concerned that I may fit myself for one. I am not concerned that I am not known—I seek to be worthy to be known."
The Master said: "It is virtuous manners which constitute the excellence of a neighborhood. If a man in selecting a residence do not fix on one where such prevail how can he be wise?"
"Riches and honor are what men desire. If these cannot be obtained in the proper way they should not be held. Poverty and meanness are what men dislike. If better cannot be obtained in the proper way, they should not be avoided."
